

Orphan Care Centers

Most Needed Supply Wish List

Early 2020

Thank you for your willingness to consider joining us in providing for the needs of over 200 infants and children who are cared for in Care Centers in China. Each child who comes into our care faces a wide range of very significant challenges due to their status as an orphan living with acute medical and/or special needs. With the loving day-to-day nurture and dedicated medical care provided to each child, there is greater hope of survival. Our prayer for each child is one day to enter into the love of a family through adoption. The supplies you provide will help meet the specific needs of these very children. Thank you!
